

AYUSH YOGI

Data Analytics & Software Engineering

yogiayush673@gmail.com | +91 6378212559 | linkedin.com/in/ayushyogi

PROFESSIONAL SUMMARY

Motivated MCA student specializing in Data Science with hands-on experience in building production-level analytics dashboards and data-driven solutions. Passionate about leveraging data structures, algorithms, and modern tech stacks to solve complex problems. Seeking software engineering and data analyst roles where technical excellence and analytical thinking drive measurable business impact.

EDUCATION

Jaipur Engineering College & Research Center (JECRC) Jaipur, India
Master of Computer Applications (MCA) - Data Science & Data Analytics Aug 2024 - Pursuing

Swift College Jaipur, India
Bachelor of Computer Applications (BCA) - Computer Software Engineering (69.92%) 2021 - 2024

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, HTML, CSS, SQL
Data Analytics & Visualization: Power BI, Advanced Excel, Statistical Analysis, KPI Development, Trend Analysis
Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, Responsive Design
Databases & Tools: MySQL, Google Sheets, Database Design, Query Optimization
Development Tools: Git, GitHub, Visual Studio Code, Replit, Adobe Creative Suite (Photoshop, Premiere Pro, Flash)
Cloud & Platforms: Amazon EMR, Salesforce
Core Competencies: Data Structures, Algorithms, Software Engineering, System Design, Agile Development

PROFESSIONAL EXPERIENCE

Freelance Data Analyst & Software Engineer 2023 - Present
Self-Employed Jaipur, India

- Architected and deployed comprehensive E-Commerce sales analytics dashboard processing 100K+ transactions, enabling data-driven decision-making and improving client revenue visibility by 40%
- Engineered multi-dimensional sales breakdown system analyzing performance across regions, categories, and products using advanced SQL queries and data modeling techniques
- Developed interactive KPI visualization framework with real-time filtering capabilities, reducing analysis time by 60% and increasing stakeholder engagement through intuitive Power BI dashboards
- Built automated profit and revenue trend analysis pipelines identifying seasonal patterns and growth opportunities, directly informing strategic business decisions and marketing campaigns
- Optimized database queries achieving 3x performance improvement in dashboard load times through efficient indexing strategies and query refactoring
- Collaborated with cross-functional clients to gather requirements, deliver scalable solutions, and maintain 98% satisfaction rate across multiple projects

PROJECTS

Restaurant Management System | *HTML, CSS, JavaScript, Bootstrap, MySQL, Google Sheets*

- Designed and developed full-stack web application automating restaurant operations including table booking and order management, reducing manual effort by 70%

- Implemented responsive user interface with Bootstrap ensuring seamless experience across mobile and desktop devices
- Built secure MySQL database backend with normalized schema for efficient data storage, retrieval, and tracking of reservations and orders
- Integrated Google Sheets API for real-time reporting and analytics accessible to restaurant management team

Mahindra Auto Expo - Project Management

- Led cross-functional team as part of management committee coordinating logistics, vendor relations, and event execution
- Demonstrated leadership and organizational skills managing timelines, resources, and stakeholder communication for large-scale automotive exhibition

CERTIFICATIONS & TRAINING

- **Samatrix.io** - Data Analysis using Python
- **Infosys Springboard** - Software Engineering Certification (2024)
- **Infosys Springboard** - Data Structures and Algorithms Certification
- **Amazon EMR** - Training Certificate of Completion
- **Salesforce** - Platform Training Certificate
- **Power BI** - Business Intelligence & Data Visualization
- **Advanced Excel** - Data Analysis & Modeling

LEADERSHIP & ACHIEVEMENTS

- Led team management for college final project demonstrating coordination, planning, and execution excellence
- 3-time medal winner in school athletics competitions showcasing dedication, discipline, and competitive drive
- Active basketball player demonstrating teamwork, strategic thinking, and performance under pressure
